MESSAGE

I am glad that SRDE has formed an association for Higher Education Institutions - 'SAHEI' with the blessings and guidance of the Board and Council consisting of several Vice-Chancellors and Academic personalities for the integration of activities among the various stake holders. Though it is the common wish of all entities to promote Higher Education in India, the lack of nodal agency/ facilitator which does not have any vested interest has been one of the major reasons for the non-development of the system at the desired levels.

It is heartening that academicians and resource personnel from across disciplines have come together to promote Higher Education through - 'SAHEI'. I am sure 'SAHEI' will go a long way, and convey my good wishes to its team and participating institutions and organizations.

MESSAGE

I am delighted to know that the SRDE's Association of Higher Education Institutions is conducting a National Seminar on "Emerging Challenges in Higher Education" at IARI Main auditorium, Indian Agriculture Research Institute, New Delhi on 22nd November 2008 and that a souvenir is being brought out on this occasion.

One of the formidable issues facing the higher education institutions today is the challenge of change. The only way to meet this challenge is to develop capabilities to provide quality education in an increasingly competitive global scenario. The topic selected for the seminar is of much relevance and higher education institutions should enhance their core competencies to provide quality education.

I send warm greetings on the occasion and extend my best wishes to the institution.
